

BRAKE FLUID TESTER DOT3/DOT4/DOT5.1

Self-test

Delivery scope:

2 x micro 1.5 V AAA.

Applications:

For every motor vehicle inspection or service inspection.

Note:

Batteries must be disposed of separately, not as household garbage.

Art. No. 0715 53 220

P. Qty. 1

Easily, quickly and precisely check the water content of all polyglycol-based brake fluids (DOT3/DOT4 and DOT5.1).

Handy testing tool with retaining clip

Practical chest-pocket storage.

Push button for quick testing and mode switching

Operates intuitively.

Compact and light construction

Approx. 55 g, including batteries.

Quick and precise measurement

Supports service inspection; can be shown to customer directly.

Covers DOT3/DOT4/DOT5.1

A single unit for three brake fluids.

Self-test

Check battery and readiness for operation.

Housing made of fiberglass-reinforced polyamide

Resistant to acids, bases, impacts and breakage. Long service life.

Manufactured and certified as per IEC/EN 61010-1

Protection of the user.

Automatic switch-off

After approx. 1 minute. Saves battery power.

LED lighting

Visibly indicates immersion of the measuring pins and dirt particles in the brake fluid tank.
